INTRODUCTION

Oyu Tolgoi LLC has established integrated supplier database which is intended to help procurement professionals as a sourcing tool to find information on potential suppliers and invite them for tenders.

On the other hand, companies willing to become supplier can register into the database via the link in the website.

This manual was developed to assist companies, organizations and individuals so that they can successfully register in the database and information they provide is as accurate and complete as possible.

Potential suppliers need to provide accurate and comprehensive information when registering in database which is crucial for future partnership between supplier and Oyu Tolgoi.

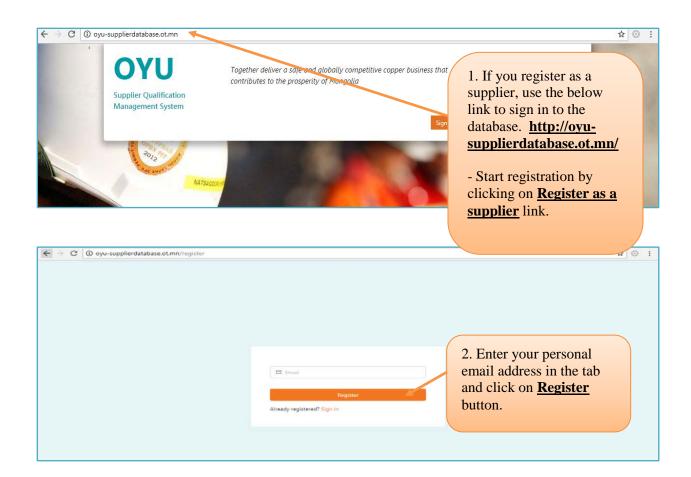

Companies registered in database can update their data whenever they need to. In particular, they can update changes in the company's address; new product and services; changes in number of employee, changes in the ratio of the company equity etc. This database has the ability to update the changes.

NOTE:

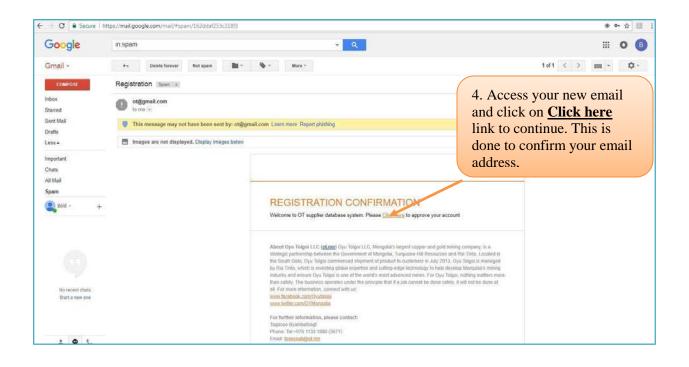

- * If this icon appears, it means that the information or answer must be provided to continue the registration.
- You need the prepare soft copies of following documents before starting the registration, (1) copy of state registration certificate; (2) company's brochure and (3) organizational chart. You will need to upload these three documents into the system while registering.

REGISTRATION

• Register as a supplier
