

OYU TOLGOI **AT A** GLANCE

- Oyu Tolgoi is the world's largest undeveloped gold and copper mine, located in the South Gobi desert in Mongolia, approximately 600km south of the Mongolian capital Ulaanbaatar. The site was discovered in 2001.
- Oyu Tolgoi is anticipated to produce 450,000 tonnes of copper and 330,000 ounces of gold per year after starting our operations in 2012, making it one of the largest gold and copper mines in the world.
- Oyu Tolgoi is a joint venture between the Government of Mongolia, and Ivanhoe Mines. Rio Tinto took on full management control of the project in December 2010, and has a majority shareholding in Ivanhoe Mines.

INFRASTRUCTURE DEVELOPMENT

- Oyu Tolgoi is building an international-standard airport, a 70km water pipeline, and to connect to the Mongolian-Chinese border, a 100km paved road and a 220kv power line. It is also paving other roads in the region.
- At a community level in the South Gobi, Oyu Tolgoi is investing in a new 2.6 billion MNT (US\$ 2 million) sports complex in Dalanzadgad, intended to support the development of Mongolian athletes. Oyu Tolgoi is investing a further 775 billion MNT (US\$ 600,000) in a sports hall in Bayan-Ovoo.
